

Summarized Notes Check-In #3

Presentation Feedback Notes:

- RCE Feedback:
 - On mobile – will you be able to scroll down?
 - Answer – yes
 - Love the SDG block – great visual
 - Love the color scheme
- Tim's Feedback:
 - Really good design – transparent – like how things are interactive

Notes on other presentations:

RCE's Comments:

- Like the idea of adding SDGs to the tiles
- Is it easy for RCE to change or add search criteria down the road?
- Liked the SDG tiles being faded out or highlighted but still accessible
- Like having the picture and short description
- Likes the download option for project information with all the basic details about it.
- Like the Pie chart/Statistical information for the goals.
- Like the Local Sustainable Program additions.

Tim's Comments:

- Like the heart idea but what happens later? Do the hearts save, or do they disappear?
Liked the basket idea for the hearts for future.
- Thinks a project coordinator contact method is useful - Carissa agrees
- Likes the search by education category.

ENUM's Comments:

- Some groups had webpage footers – we should add one to our pages as well.
- We could think about adding an 'X' on the tiles as an added way to close them.

- Think about adding the mobile advanced search criteria as a filter tab to minimize the complexity of the screen/page.
- Add a hover over function for the UN SDGs - expand information on them.

General Comments:

- Tim likes the project status.
- Tim likes the idea of having project partners and their projects integrated.
- Carrisa wants it to be user friendly and wants people to be able to learn more about the SDGs for better involvement.
