

Summarized Notes Check-In #1

Regional Centres of Expertise (RCE) provides education for the United Nation's 17 Sustainable Development Goals into Saskatchewan local communities in which they operate. RCE is looking for a better solution for one their website components ``Project and Profiles" so that they can provide better and clear information of the Projects currently in progress or the important profiles to the volunteers, local communities, or any other information seeker. The main goal is to achieve Sustainable Development by following United Nation 17 goals.

Key Highlights

1. More awareness of the projects and profiles.
2. Information on Sustainability Development.
3. Recognition Event.
4. Purpose of RCE.
5. Providing a common platform for like-minded people around the world for achieving suitability development.
6. Looking for better solutions or suggestions for their website in general and specifically for Projects and Profiles.
7. Shared ideas like what they would like to have, for example, a map showing the projects.
8. Combining local communities together for a better future.
9. Researchers and Teachers, importance in using the website.
10. Availability and structure of the information.
